If-Else Statement in R Programming

```r
x<-25L
if (is.integer(x))
{
  print("integer")
}else

{
  print("not integer")
}
```

```
## [1] "integer"
```

```r
y<-c("bangla","english","math","physics")
```

```r
if("english" %in%y)
{
  print("english is found")
}else
{
  print("not found")
}
```

```
## [1] "english is found"
```

```r
marks<-70
```

```r
if(marks<=80)
{
  print("A")
}else
{
  print("A-")
}
```

```
## [1] "A"
```

```r
if(marks<80)
{
  print("A")

}else if(marks>60)
{
  print("A-")

}else
{
  print("B")
}
```

```
## [1] "A"
```
